

# Becoming a WebBrochure Owner

# MyWebBrochure.com

Stationery for the Web

---

**1**

**Selecting your domain name for your WebBrochure is the most important step**

Every company or organization or individual that wants to be on the Internet will register a domain name for use as their online identity or name. Located on our purchase page is a domain search box. Make sure you follow our instructions closely.

**2**

**Purchase a WebBrochure**

We use PayPal®. If you're a PayPal® customer you're ready to become a MyWebBrochure affiliate. We actually pay you for finding a WebBrochure customer and automatically deposit your commission in your PayPal® account.

**3**

**Prepare for making you WebBrochure**

It takes us up to 2 business days to post and setup your WebBrochure. During that time you can start picking the themes you want to start with. Collect the pictures you want to post and start writing your WebBrochure material.

**4**

**Review our online tutorials**

MyWebBrochure has produced tutorials to explain every aspect of building a WebBrochure. Just sit back, watch, and learn.
