Stationery for the Web

What is a WebBrochure

What's a WebBrochure?

web·bro·chure or Web brochure

n.

A small, simple web page, the online equivalent of a paper brochure that contains a single limited message or description for the purposes of advertising a business or organizations, product, or service. They are usually succinct in language and eye-catching in design, they also contain an e-mail link to contact the company allowing the customers to be contacted for further information.

What's a Website?

web·site or Website

n.

A set of documents coded in HTML that are linked to each other or to pages on other websites that are prepared and maintained as a collection of information by a person, group, or organization. A website usually includes a homepage that provides a link to the other pages in the site. A website usually contains a variety of information about a number of different products or services, as well as detailed information about the business, individual, or organization. It may also provide e-commerce capabilities like an online store that allows the customers to browse product descriptions in an online catalog and purchase products online using a shopping cart. Web sites typically requires the ongoing services of a HTML programmer and a graphic designer to design and maintain their content.

MyWebBrochure.com?

my-web-bro-chure.com or MyWebBrochure.com

n.

A online service that allows the average person to easily create and manage a webbrochure using their own domain name. The WebBrochures design can be quickly and easily modified using a user friendly web interface without the need for an HTML programmer. The service provides an easy to use web-based content manager that allows the webbrochures theme, text, and graphic content to be added, edited at any time 24/7. Additional features include free access to library of over 600 pre-defined and user customizable themes, a PayPal button for purchases or donations, and a hit counter to help you monitor traffic on your MyWebBrochure site.
